

Remedies Day Spa Locations and Services

Remedies Day Spa has experienced successful growth through the years and now includes six seasonal locations throughout Northwestern Montana. The Spa in East Glacier, at the Glacier Park Lodge was the first to be added to the company in 2002, followed by the Belton Chalet location in West Glacier the same year. These two locations are open in the spring and summer, catering to the millions of guests that visit Glacier National Park each year. These two new spas are 90 and 30 miles, respectively, away from the home Spa, so the East Glacier location offers housing for staff members while working there. The Belton Chalet Spa is staffed by therapists from the Whitefish location.

In the summer of 2003, Remedies added a spa at Kandahar Lodge, at the Whitefish Mountain Resort at Big Mountain. The following summer, another location was added on the mountain, in the village at the newly built retail area of the Morning Eagle Lodge. This was the first Express location with two treatment rooms, as well as a small retail area. This location will expand to a larger space offering more services and retail items for the 2008 - 2009 ski season.

In the spring of 2007, Remedies added a sixth location at Whitefish's Grouse Mountain Lodge. This beautiful lodge is located one mile from the downtown, situated on two championship 18-hole golf courses. This small Spa caters to guests in house offering limited services, while those who desire expanded services enjoy a complimentary shuttle to Remedies' Whitefish location.

Remedies Essentials product line was recently launched in December of 2007. The product line, made all by hand in small batches is unique in the industry as the ingredients are raw bulk food items one might find in their own cupboard, free of preservatives and additives, Remedies Essentials is as healthful as it is unique. The product line is available at spas, hotels, retail shops and on-line.

Treatments range from Remedies signature "Fassage™", Mannissage™ and "Pedissage™" to the "Great Hot Scrub Rub," and a "Honey and Cream Hot Rock Foot Rub." Almost every treatment on the Spa menu is available in each of the Remedies locations, with the exception of the Whipped Wrap (a body wrap of whipped cream and honey) and the body scrub, which are only available at the original Whitefish farm house location on Wisconsin Avenue.
